In re: Jong Woon Park et al.
Serial Number: 09/742302
Filed: 22 December 2000
Docket no.: 66476-024

DECISION ON REQUEST
FOR RETROACTIVE LICENSE
UNDER 37 CFR 5.25

Title: Ex-vessel core melt retention device preventing molten core concrete interaction

Decision: Denied

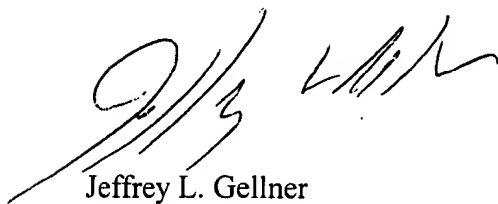

37 CFR 5.25(a) requires the following:

1. A listing of each of the foreign countries in which the unlicensed patent application material was filed,
2. The dates on which the material was filed in each country,
3. A verified statement (oath or declaration) containing:
 - i. An averment that the subject matter in question was not under a secrecy order at the time it was filed abroad, and that it is not currently under a secrecy order,
 - ii. A showing that the license has been diligently sought after discovery of the proscribed foreign filing, and
 - iii. An explanation of why the material was filed abroad through error and without deceptive intent without the required license under § 5.11 first having been obtained, and
4. The required fee (§ 1.17(h)).

The petition filed 30 March 2001 is Denied at this time because the petition is defective in that the requirement(s) set forth in 37 C.F.R. 5.25(a) has(have) not been satisfied. To wit:

A search of the retroactive license petition and the Applicant's application did not show a verified statement from Mr. T.G. Theofanous. The petition cannot be acted upon until the verified statement is supplied.

Accordingly, the provisions of 37 CFR 5.25 not having been fully met, the petition is denied, and in the absence of any response within **60 days** of the mailing date of this letter, such denial will be made final and the final action under 35 U.S.C. 185 will be taken. Extensions of time may be had under 37 C.F.R. 1.136(a).

A handwritten signature in black ink, appearing to read 'J. Gellner', is written over the printed name.
